

## **Job Search Assistance at the Library**

In response to the unemployment rate on the Eastern Shore of Maryland, the Somerset County Library is offering improved job search assistance with funding from the Lower Shore Workforce Alliance (LSWA), the workforce division of the Tri-county Council for the Lower Eastern Shore of Maryland. The LSWA has provided laptop computers for the Corbin Memorial Library in Crisfield and the Princess Anne Library. The laptops will be available for researching job and training opportunities, completing online applications, and creating resumes and cover letters. To use the laptops, a photo ID with current address and a library card are required. In addition, a collection of over 50 new books on job search skills are available to borrow.
